

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

THE
MERCHANT'S CALCULATOR,
OR NEW, COMPLETE,
AND EXTENDED READY RECKONER,

ADAPTED TO THE USE OF
MERCHANTS AND DEALERS IN EVERY BRANCH OF TRADE,
SHEWING AT ONE VIEW
THE AMOUNT OR VALUE OF ANY NUMBER OR QUANTITY OF GOODS OR
MERCHANDIZE

FROM ONE TO TEN THOUSAND,

AT ALL THE VARIOUS PRICES
FROM ONE FARTHING TO THIRTY SHILLINGS,

IN EIGHT HUNDRED AND FORTY

DIFFERENT TABLES:

ALSO, AT THE FOOT OF EACH TABLE THROUGHOUT THE WORK,

ARE SHOWN THE
FRACTIONAL PARTS OF A YARD OR POUND;

THE WHOLE CONTAINING UPWARDS OF
SEVENTY - TWO THOUSAND ADDITIONAL CALCULATIONS,
ENTIRELY NEW.

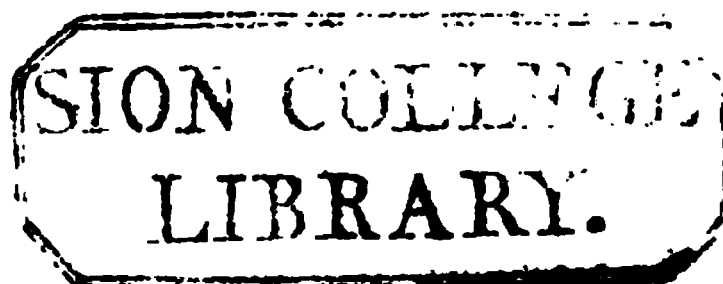

BY C. P. WALKER,

Author of the Per Centage Tables, shewing the exact *Profit* upon all Descriptions
of Goods from $2\frac{1}{2}$ to 30 per Cent. upon the first Cost.

LONDON:

PRINTED FOR LONGMAN, HURST, REES AND ORME; AND A.
HEATON, AND ROBINSON AND CO. LEEDS; AND
SOLD BY THE BOOKSELLERS.

1810.

SOLD BY ORDER OF THE

Lon Coll. Library

ENTERED AT STATIONERS' HALL.

Price 30s. in Boards.

No Copy of this Book is genuine, but what is signed by
the Author's own hand-writing as under :

PREFACE.

IT may seem almost unnecessary to offer any observations on the uses of a Work of this kind, which is in general so well understood.

That such works have been useful is beyond a doubt; but when we consider the present state of Commerce, where Articles are become so complicated and numerous, and their prices, so split and divided through much competition; something on a more extensive scale may not be unacceptable.

The present Work (like an extended Gazetteer) though it may not claim the merit of originality, has at least the advantage of being *more generally useful*, than any hitherto offered. In this Work the references are less by Seventy-two Thousand, than in any other, and the hazard of mistakes in referring, is thereby much lessen'd; likewise in large concerns, where the whole year's entry of goods undergoes a final examination; to have only *one* reference to make, will save much time and labour, and will render that, which is generally considered tedious, comparatively nothing.

It may be proper to remark, that the original Copy has had the most *exact* and minute attention, to render it correct. The *Proof Impressions* have also been examined with the greatest care, and the Author (after a complete *revision* of the work *since* printed off) feels a satisfaction in saying, he has good reason to hope no inaccuracy has escaped his notice.

In the Tables, at the Foot; *from the Yard, down to the Nail inclusive*, the Calculations are made, without the Fractions; *below a Nail*, the *Fractions* are frequently *divided*; as in the case of half a Nail at 23s. this, unless brought out at $8\frac{1}{2}$ d. (which is 4d. too little) must be brought out at $8\frac{1}{4}$ d. (which is 4d. too much) and wherever any thing of this kind occurs, the *medium* is observed, which may be understood to serve as a general rule. The whole is entirely new, and independent of any other Work whatsoever.

From a happy concurrence of circumstances; Commerce with us, has long been cultivated with attention and success, *but of late years*, it has astonishingly increased, and by spreading from one corner of the State to another, encouraging the arts, and creating industry, has collected *large property* in the *labour* and *commodities* which they are the chief instruments in producing; this, with the number of our Manufactures, along

PREFACE.

with vigilant and enterprising Merchants, has drawn an amazing Capital into the State. An extensive Commerce by a necessary consequence producing large Stocks, has also produced them in great *variety*; from this, there must arise rivalships which diminish the profit of trade, and render it more *intricate* and *delicate*. The late Lord Mansfield, in all matters of Commerce which came under his notice, expressed the strongest regard for its prosperity, and was studiously careful to support its interests and maintain its consequence. By intelligent men, for more than a century, a great share of attention has been given to assist it in all the improvements of which it is susceptible; and by a train of events, which have *gradually* led to useful discovery; the whole face of affairs in the Commercial World, is entirely changed; the India Company alone constitutes one of the most stupendous, political, as well as Commercial Machines to be met with in History; this, and other Chartered Companies, have not only, *long* served as a Nursery to our Trade, but are guarantees to our Manufacturers for what these Companies send abroad, and draw immense wealth from distant nations into this country; this wealth by commanding large Stocks, creates a competition, and this again a reduction of the commodity, which tends to keep down the price of labour and secure a ready Market. If by any temporary depression of Trade, a partial inconvenience is felt, it is found to prove salutary, and ultimately of national benefit, for *by an excessive trade long continued*, the circulating medium would become so great, as to increase the prices of labour, *with* that of the raw material to such a degree, that we should in the end be undersold, and our Trade would thereby naturally decline.

From these considerations, Men of speculative genius have been led to explore the regions of Science, not only for *new* Articles of Commerce, but to produce them, at the *easiest rate*; these for a considerable time have been multiplying upon us, as Cutlery, Paper, Glass, Broad Silk, Linen and Woollen, with Porcelain, &c. &c. and it is impossible to say, to what height, or to what extent our Commercial advantages may *yet* be carried; especially since the late assistance given it, through the invention and improvements of Wedgwood, Arkwright and Bolton, all of which tend to multiply Articles, reduce labour, and give *dispatch* to our Commercial transactions. From these circumstances, the Author of this Publication hopes, that his endeavours to facilitate and give a greater degree of certainty to the operations of the Counting-House, will prove an acceptable service rendered to the Commercial World.

At 1 Farthing.
